Introduction

The Nomenclature of Territorial Units for Statistics (NUTS) was drawn up by Eurostat decades ago in order to provide a breakdown of the economic territory of the European Union⁽¹⁾ into territorial units for the production of regional statistics and for targeting political interventions at a regional level. The NUTS classification has been used in EU legislation since 1988⁽²⁾, however, it was only encoded into a formal Regulation of the European Parliament and the Council in 2003⁽³⁾.

The NUTS classification can normally only be amended after at least three years have passed since the previous version. Amendments were established in 2006, 2010 and 2013⁽⁴⁾. Another, extraordinary amendment was organised in 2014 following a substantial reorganisation of the administrative structure in Portugal. This publication covers the fourth regular revision of the NUTS regions, called "NUTS 2016". It came into effect on 1 January 2018 and replaces NUTS 2013 (including the changes from the extraordinary amendment of 2014).

Furthermore, the European Parliament and the Council adopted the so-called Tercet Regulation⁽⁵⁾ in December 2017. With this regulation, territorial typologies such as the degree of urbanisation were introduced into the NUTS Regulation.

Correspondence tables showing the differences between every NUTS version since 1999 are available on the Eurostat website⁽⁶⁾.

The NUTS serves several objectives:

- It ensures harmonised standards in the collection and transmission of regional data;
- It guarantees that published regional statistics are based on comparable data;
- It enables the analysis and comparison of the socio-economic situation of the regions based on harmonised data;
- Policy interventions such as the European Structural and Investment Funds⁽⁷⁾ can be specifically targeted to support disadvantaged and less competitive regions.

The purpose of this publication is to present the European regions according to the NUTS 2016 classification in the form of tables and maps. It replaces the previous Eurostat publication on NUTS 2013 issued in 2015, and includes all the changes which have taken place since then.

The maps in this document are simply intended to enable the reader to locate the regions; the regional boundaries shown are also indicative. The scales used differ depending on the country. The countries are listed in the official protocol order, which is alphabetically based on the spelling of each in its own national language.

European regional statistics according to the NUTS breakdown can be accessed through the Eurostat online database⁽⁸⁾. Depending on the domain and variable concerned, regional statistics are available at one or more of the three NUTS levels.

⁽¹⁾ Reference for the definition of the economic territory of the EU: Regulation (EU) No 549/2013 of the European Parliament and of the Council of 21 May 2013 on the European system of national and regional accounts in the European Union (ESA 2010 (European System of Accounts)) Annex A: points 2.05, 13.11 and 12, OJ L 174, 26.06.2013.

⁽²⁾ Council Regulation (EEC) No 2052/88 on the tasks of the Structural Funds: OJ L 185, 15.7.1988.

⁽³⁾ Regulation (EC) No 1059/2003 of the European Parliament and the Council on the establishment of a common classification of territorial units for statistics (NUTS); OJ L 154, 21.6.2003. The consolidated version of the Regulation is set out in Annex 1 of this document. Note that this consolidated version also includes changes brought by the Regulation (EU) 2017/2391 of the European Parliament and of the Council of 12 December 2017 amending Regulation (EC) No 1059/2003 as regards the territorial typologies (Tercet); OJ L 350, 29.12.2017, p. 1

⁽⁴⁾ Amendments take place in form of delegated acts. All corresponding legislation is available on the NUTS website: <https://ec.europa.eu/eurostat/web/nuts/legislation>.

⁽⁵⁾ OJ L 350, 29.12.2017, p. 1

⁽⁶⁾ <https://ec.europa.eu/eurostat/web/nuts/history>.

⁽⁷⁾ <https://ec.europa.eu/research/infrastructures/index.cfm?ph=http://ec.europa.eu/research/infrastructures/index.cfm?pg=esig=esi>.

⁽⁸⁾ <https://ec.europa.eu/eurostat/web/regions/data/database>.

Some examples of regional datasets available on Eurostat's website at the NUTS 2 level are:

- agriculture
 - animal populations
 - production of cow's milk on farms
- demography
 - population by age and sex
 - fertility rates by age
 - life expectancy by age and sex
- regional economic accounts
 - gross domestic product at current market prices
- labour market
 - employment by sex and age
 - average number of usual weekly hours of work in the main job
- education
 - number of students by age and sex
 - early leavers from education and training by sex
- poverty and social exclusion
 - at-risk-of-poverty-rate

... and many more, covering aspects of science and technology, business, tourism, transport, labour costs, information society, crime as well as environment and energy in addition to those mentioned above. A complete overview is available on the Eurostat website.

Basic principles

The NUTS classification subdivides the economic territory of the EU Member States into territorial units (regions), whereby the following principles apply:

- (a) *The NUTS classification includes three hierarchical levels*

The classification is made up of three hierarchical levels: each Member State is divided into NUTS 1 regions, which in turn are subdivided into NUTS 2 regions and then divided further into NUTS 3 regions. Each of these regions is allocated a specific code and name. Since several different regions within Europe have the same name, a distinction has been made by adding to each of these the abbreviation for the country concerned. The following table shows the NUTS 1 region "MACROREGIUNEA UNU" of Romania, including its breakdown into NUTS 2 (Nord-Vest) and NUTS 3 regions, as an example:

RO1	MACROREGIUNEA UNU
RO11	Nord-Vest
RO111	Bihor
RO112	Bistrița-Năsăud
RO113	Cluj
RO114	Maramureș
RO115	Satu Mare
RO116	Sălaj

Some regions appear at more than one level (for example: Luxembourg appears as the country and also for NUTS levels 1, 2 and 3). In such cases, the codes end in zero for a region with an identical territory at the next lower level. For Luxembourg, the NUTS 1 code is "LU0", the NUTS 2 code is "LU00" and the NUTS 3 code is "LU000". The labels do not need to be identical at the different levels, even if the regions concerned cover identical territory.

(b) *NUTS favours administrative units⁽⁸⁾ already existing in the Member States*

Existing administrative units within the Member States constitute the very first criterion for the definition of the NUTS regions. The main reason for this is that the existence of administrative structures usually supports the availability of data and the implementation capacity of policy measures.

If no administrative units exist for a given level, it can be constituted by aggregating smaller administrative units to that higher level. This aggregation shall take geographical, socio-economic, historical, cultural or environmental circumstances into consideration. The resulting aggregated units are referred to as "non-administrative units".

Examples of administrative and non-administrative units being designated as NUTS regions are:

NUTS level	Germany	Spain	Czech Republic	Italy
NUTS 1	Bundesländer	<i>non-administrative aggregations</i>	Území	<i>non-administrative aggregations</i>
NUTS 2	Regierungsbezirke/ <i>non-administrative aggregations</i>	Comunidades autónomas	<i>Regiony soudržnosti (cohesion regions)</i>	Regioni
NUTS 3	Kreise und Kreisfreie Städte	Provincias	Kraje	Province

(c) *The NUTS Regulation lays down minimum and maximum thresholds for the population size of the regions*

The average size of the regions in the respective level shall lie within the following thresholds:

Level	Minimum	Maximum
NUTS 1	3 million	7 million
NUTS 2	800 000	3 million
NUTS 3	150 000	800 000

For non-administrative units, deviations exist for particular geographical, socio-economic, historical, cultural or environmental circumstances, especially for islands and outermost regions.

(d) *The NUTS are complemented at the lower level by local administrative units (LAU)*

Districts and municipalities constitute a more detailed level than NUTS 3. These are called 'Local Administrative Units' (LAUs) and are the lower-level building blocks of the NUTS regions⁽¹⁰⁾.

Amending NUTS

The NUTS Regulation lays down the rules for amendments of the regional breakdown.

No earlier than at least three years after the previous amendment, the Commission can launch the procedure to renew the classification, often following notifications by Member States about changes in their administrative (or non-administrative) structures. In close cooperation with the Member States, the Commission initiates the legislative procedure to amend the annexes of the NUTS Regulation, in which the territorial units are specified.

A number of detailed rules apply; while changes in national administrative regions lead virtually automatically to a change in the NUTS classification, for non-administrative units the NUTS Regulation stipulates that changes must entail a reduction of the standard deviation of the size in terms of population of all EU territorial units.

⁽⁸⁾ An "administrative unit" is a geographical area with an administrative authority that has the power to take administrative or policy decisions for that area within the legal and institutional framework of the Member State (Regulation 1083/2003, art. 3 (2)).

⁽¹⁰⁾ <https://ec.europa.eu/eurostat/web/nuts/local-administrative-units>.

The latest amendment round, whose results are reflected in this publication, was specified in Commission Regulation (EU) No 2016/2066 of 21 November 2016, entered into force on 19 December 2016 and applies, with regard to the transmission of data to the Commission (Eurostat), since 1 January 2018. All agreed changes are reflected in this publication.

Purpose of NUTS

The NUTS serves as a reference:

- (a) *For the collection, development and harmonisation of the European Union's regional statistics*

During the 1970s, NUTS gradually replaced the specific divisions used in the various statistical domains (agricultural regions, transport regions, etc.), and it was on the basis of NUTS that regional economic accounts were developed and the regional sections of EU surveys were defined.

The NUTS still ensures that regional data is collected EU-wide on an agreed and harmonised basis, making certain that the data is comparable between the regions.

- (b) For socio-economic analyses of the regions

The different levels of NUTS provide an analytical scheme. The 1961 Brussels Conference on Regional Economies, organised by the Commission, found that NUTS 2 (basic regions) was the framework generally used by Member States to apply their regional policies and is therefore the appropriate level for analysing regional/national problems until now. On the other hand, NUTS 1 (major socio-economic regions grouping together basic regions) should be used for analysing regional problems within the EU, such as 'the effect of the customs union and economic integration on areas at the next level down from national areas'. NUTS 3, which broadly comprises regions which are too small for complex economic analyses, may be used for specific analysis or to pinpoint where regional measures need to be taken.

- (c) For the framing of EU regional policies

The new rules in the legislation governing the programming period of EU Cohesion Policy funding for 2014-2020 state that Structural Funds support is now solely based on the classification of NUTS 2 regions. For the purpose of receiving funding from the Structural Funds, NUTS 2 regions are classified into less developed regions, transition regions and more developed regions. The allocation of resources from the Funds depends on this classification⁽¹¹⁾.

Regional classification beyond the EU

The NUTS nomenclature is only defined for the 28 Member States of the European Union. For the countries that make up the European Free Trade Association (EFTA), regions have been encoded in a way which resembles the NUTS.

Concerning the EU candidate countries and the potential candidates, Eurostat has drafted together with them a nomenclature of statistical regions intended to produce a hierarchy similar to the NUTS⁽¹²⁾. On accession to the EU, the breakdown into statistical regions in force in a given country, agreed bilaterally, will become part of the NUTS and subject to its provisions in the NUTS Regulation.

a. Main characteristics

The current NUTS nomenclature, applicable from 1 January 2018, subdivides the economic territory of the European Union into 104 regions at NUTS 1 level, 281 regions at NUTS 2 level and 1 348 regions at NUTS 3 level.

Below those, the Local Administrative Units (LAUs) have been defined. This LAU level⁽¹³⁾ consists of around 100 000 municipalities or equivalent units in the 28 EU Member States (as of 31 December 2017).

⁽¹¹⁾ <https://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX:32013R1303&from=EN>.

⁽¹²⁾ <https://ec.europa.eu/eurostat/web/nuts/statistical-regions-outside-eu>.

⁽¹³⁾ Previously, two levels of LAU existed. Since 2017, only one level has been kept (see <https://ec.europa.eu/eurostat/web/nuts/local-administrative-units>).

The aim of the NUTS classification is to ensure that comparable regions appear at the same NUTS level. With the population size being defined in the NUTS Regulation as a key indicator for comparability, each level inevitably contains regions that differ greatly in terms of area, economic weight or administrative powers.

Some examples below illustrate the heterogeneity of the regions, focusing here on area size and the population figures:

Area size

NUTS 1

Largest:

Manner-Suomi (Finland), 336 859 km² and Norra Sverige (Sweden), 309 934 km²

Smallest:

Région de Bruxelles-Capitale / Brussels Hoofdstedelijk Gewest (Belgium), 161 km² and Malta, 315 km²

NUTS 2

Largest:

Pohjois- ja Itä-Suomi (Finland), 227 150 km² and Övre Norrland (Sweden), 164 077 km²

Smallest:

Ciudad Autónoma de Melilla (Spain), 13 km² and Ciudad Autónoma de Ceuta (Spain), 20 km²

NUTS 3

Largest:

Norrbottens län (Sweden), 105 205 km² and Lappi (Finland), 98 983 km²

Smallest:

Like NUTS 2 (Melilla and Ceuta), followed by Tower Hamlet and Westminster with 22 km² each

Population (approximations)

NUTS 1

Largest:

Nordrhein-Westfalen (Germany), 17.9 million and Nord-Ovest (Italy), 16.1 million

Smallest:

Åland (Finland), 29 200 and the Região Autónoma dos Açores (Portugal), 245 300

NUTS 2

Largest:

Île de France (France), 12.2 million and Lombardia (Italy), 10 million

Smallest:

Åland (Finland), 29 200 and the Ciudad Autónoma de Melilla (Spain), 84 900

NUTS 3

Largest:

Madrid (Spain), 6.5 million and Barcelona (Spain), 5.5 million

Smallest:

El Hierro (Spain), 10 900 and Evrytania (Greece), 19 200 inhabitants.

Tables 2 and 3 show the largest, smallest and average areas and populations at the three NUTS levels, for each Member State and for the European Union as a whole.

B. Changes compared to 2013

While only two countries had changes at the NUTS 1 level, six countries have changes at NUTS 2 and nine countries at the NUTS 3 level.

The changes in the current NUTS version (NUTS 2016) compared to NUTS 2013 are as follows:

	NUTS 1	NUTS 2	NUTS 3
Germany			two regions with boundary changes; another two regions merged
Ireland		structure revised from 2 into 3 regions	regions reassigned and partially relabelled
France	7 out of 9 regions disbanded, 12 new created; 2 other with name changes	many regions reassigned due to revised NUTS 1 structure	regions recoded due to revised NUTS 1 structure
Lithuania		Lietuva split into two: Sostinės regionas and Vidurio ir vakarų Lietuvos regionas (Capital Region and Central and Western Lithuania Region)	Vilnius apskritis (NUTS 3 region) reassigned to new NUTS 2 region LT01 Sostinės regionas (Capital Region); recodings due to establishment of new regions at NUTS 2
Hungary		Közép-Magyarország (HU10) split into two: Budapest (HU11) and Pest (HU12)	NUTS 3 regions of Budapest (previously HU10, now Budapest HU11) and Pest (previously HU10, now Pest HU12) reassigned
Netherlands			NL121, 122, 123, 338, 339, 322 and 326 recoded into NL124, 125, 126, 33B, 33C, 328 and 329 due to boundary changes
Poland	3 out of 6 NUTS 1 regions changed boundaries, one new created	2 NUTS 2 regions reassigned, 1 new created (capital region)	several NUTS 3 regions reassigned due to changes at NUTS 1 / 2 level, 1 new created
Finland			Two regions with boundary changes
UK		new region Southern Scotland created from parts of Eastern Scotland and South Western Scotland (now Western Scotland)	in Scotland, several regions reassigned due to changes at NUTS 2 level; UKN (Northern Ireland) restructured the NUTS 3 level from 5 into 11 regions

Annex 1

REGULATION (EC) No 1059/2003 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 26 May 2003 on the establishment of a common classification of territorial units for statistics (NUTS)⁽¹⁴⁾

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 285 thereof,

Having regard to the proposal from the Commission⁽¹⁵⁾,

Having regard to the opinion of the European Economic and Social Committee⁽¹⁶⁾,

Having regard to the opinion of the Committee of the Regions⁽¹⁷⁾,

Acting in accordance with the procedure laid down in Article 251 of the Treaty⁽¹⁸⁾,

Whereas:

- (1) Users of statistics express an increasing need for harmonisation in order to have comparable data across the European Union. In order to function, the internal market requires statistical standards applicable to the collection, transmission and publication of national and Community statistics so that all operators in the single market can be provided with comparable statistical data. In this context, classifications are an important tool for the collection, compilation and dissemination of comparable statistics.
- (2) Regional statistics are a cornerstone of the European Statistical System. They are used for a wide range of purposes. For many years European regional statistics have been collected, compiled and disseminated on the basis of a common regional classification, called "Nomenclature of territorial units for statistics" (hereinafter referred to as NUTS). It is now appropriate to fix this regional classification in a legal framework and to institute clear rules for future amendments of this classification. The NUTS classification should not preclude the existence of other subdivisions and classifications.
- (3) Accordingly, all Member States' statistics transmitted to the Commission, which are broken down by territorial units, should use the NUTS classification, where applicable.
- (4) In its analysis and dissemination, the Commission should use the NUTS classification for all statistics classified by territorial units, where applicable.
- (5) Different levels are needed for regional statistics depending on the purpose of these statistics at national and European level. It is appropriate to have at least three hierarchical levels of detail in the European regional NUTS classification. Member States could have further levels of NUTS details, where they consider it necessary.
- (6) Information on the current territorial composition of NUTS level 3 regions is necessary for the proper administration of the NUTS classification and should therefore be transmitted regularly to the Commission.
- (7) Objective criteria for the definition of regions are necessary in order to ensure impartiality when regional statistics are compiled and used.
- (8) Users of regional statistics need stability of the nomenclature over time. The NUTS classification should hence not be amended too frequently. This Regulation will ensure a greater stability of rules over time.

⁽¹⁴⁾ Latest consolidated version as of 18.01.2018. See: <https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=CELEX:02003R1059-20180118>.

⁽¹⁵⁾ OJ C 180 E, 26.6.2001, p. 108.

⁽¹⁶⁾ OJ C 260, 17.9.2001, p. 57.

⁽¹⁷⁾ OJ C 107, 3.5.2002, p. 54.

⁽¹⁸⁾ Opinion of the European Parliament of 24 October 2001 (OJ C 112 E, 9.5.2002, p. 146), Council Common Position of 9 December 2002 (OJ C 32 E, 11.2.2003, p. 26) and Decision of the European Parliament of 8 April 2003 (not yet published in the Official Journal).

- (9) Comparability of regional statistics requires that the regions be of a comparable size in terms of population. In order to achieve this goal, amendments of the NUTS classification should render the regional structure more homogeneous in terms of population size.
- (10) The actual political, administrative and institutional situation must also be respected. Non-administrative units must reflect economic, social, historical, cultural, geographical or environmental circumstances.
- (11) Reference should be made to the definition of the "population" on which the classification is based.
- (12) The NUTS classification is restricted to the economic territory of the Member States and does not provide complete coverage of the territory to which the Treaty establishing the European Community applies. Its use for Community purposes will therefore need to be assessed on a case-by-case basis. The economic territory of each country, as defined in Commission Decision 91/450/EEC⁽⁹⁾, also includes extraregio territory, made up of parts of the economic territory that cannot be attached to a certain region (air-space, territorial waters and the continental shelf, territorial enclaves, in particular embassies, consulates and military bases, and deposits of oil, natural gas, etc. in international waters, outside the continental shelf, worked by resident units). The NUTS classification must also provide the possibility of statistics for this extraregio territory.
- (13) Amendments to the NUTS classification will require close consultations with the Member States.
- (14) Since the objective of the proposed action, namely the harmonisation of regional statistics, cannot be sufficiently achieved by the Member States and can therefore be better achieved at Community level, the Community may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective.
- (15) The NUTS classification laid down in this Regulation should replace the "Nomenclature of territorial units for statistics (NUTS)" established to date by the Statistical Office of the European Communities in cooperation with the national statistical institutes. As a consequence, all references in Community acts to the "Nomenclature of territorial units for statistics (NUTS)" should now be understood as referring to the NUTS classification laid down in this Regulation.
- (16) Council Regulation (EC) No 322/97 of 17 February 1997 on Community Statistics⁽²⁰⁾ constitutes the reference framework for the provisions of this Regulation.
- (17) The measures necessary for the implementation of this Regulation should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission⁽²¹⁾.
- (18) The Statistical Programme Committee established by Council Decision 89/382/EEC, Euratom⁽²²⁾ has been consulted in accordance with Article 3 thereof,

HAVE ADOPTED THIS REGULATION:

Article 1 **Subject matter**

- (1) This Regulation establishes a common statistical classification of territorial units (NUTS), in order to enable the collection, compilation and dissemination of European statistics at different territorial levels of the Union.
- (2) The NUTS classification is set out in Annex I.
- (3) Local administrative units (LAU), as referred to in Article 4, shall complement the NUTS classification.
- (4) Statistical grids, as referred to in Article 4a, shall complement the NUTS classification. Those statistical grids shall be used to calculate population-based territorial typologies.

⁽⁹⁾ OJ L 240, 29.8.1991, p. 36.

⁽²⁰⁾ OJ L 52, 22.2.1997, p. 1.

⁽²¹⁾ OJ L 184, 17.7.1999, p. 23.

⁽²²⁾ OJ L 181, 28.6.1989, p. 47.

- (5) Union territorial typologies, as referred to in Article 4b, shall complement the NUTS classification by attributing types to the territorial units.

Article 2 Structure

- (1) The NUTS classification subdivides the economic territory of the Member States, as defined in Decision 91/450/EEC, into territorial units. It ascribes to each territorial unit a specific code and name.
- (2) The NUTS classification is hierarchical. It subdivides each Member State into NUTS level 1 territorial units, each of which is subdivided into NUTS level 2 territorial units, these in turn each being subdivided into NUTS level 3 territorial units.
- (3) However, a particular territorial unit may be classified at several NUTS levels.
- (4) At the same NUTS level, two different territorial units in the same Member State may not be identified by the same name. If two territorial units in different Member States have the same name, the country identifier is added to the territorial units' names.

Article 3 Classification criteria

- (1) Existing administrative units within the Member States shall constitute the first criterion used for the definition of territorial units.

To this end, 'administrative unit' shall mean a geographical area with an administrative authority that has the power to take administrative or policy decisions for that area within the legal and institutional framework of the Member State.

- (2) In order to establish the relevant NUTS level in which a given class of administrative units in a Member State is to be classified, the average size of this class of administrative units in the Member State shall lie within the following population thresholds:

Level	Minimum	Maximum
NUTS 1	3 million	7 million
NUTS 2	800 000	3 million
NUTS 3	150 000	800 000

If the population of a whole Member State is below the minimum threshold for a given NUTS level, the whole Member State shall be one NUTS territorial unit for this level.

- (3) For the purpose of this Regulation, the population of a territorial unit shall consist of those persons who have their usual place of residence in this area.
- (4) The existing administrative units used for the NUTS classification are set out in Annex II. The Commission shall be empowered to adopt delegated acts in accordance with Article 7a to amend Annex II on the basis of the changes in the administrative units that have been communicated to it by the Member State concerned in accordance with Article 5(1).
- (5) If for a given level of NUTS no administrative units of a suitable scale exist in a Member State, in accordance with the criteria referred to in paragraph 2, this NUTS level shall be constituted by aggregating an appropriate number of existing smaller contiguous administrative units. This aggregation shall take into consideration such relevant criteria as geographical, socio-economic, historical, cultural or environmental circumstances.

The resulting aggregated units shall hereinafter be referred to as 'non-administrative units'. The size of the non-administrative units in a Member State for a given NUTS level shall lie within the population thresholds referred to in paragraph 2.

Some non-administrative units may, however, deviate from those thresholds because of particular geographical, socioeconomic, historical, cultural or environmental circumstances, especially in the islands and the outermost regions.

Article 4 Local administrative units

1. In each Member State, local administrative units (LAU) shall subdivide NUTS level 3 into one or two further levels of territorial units. At least one of the LAU levels shall be an administrative unit as defined in Article 3(1) and as set out in Annex III. The Commission shall be empowered to adopt delegated acts in accordance with Article 7a to amend the list of LAU in Annex III on the basis of the changes in the administrative units that have been communicated to it by the Member State concerned in accordance with Article 5(1).
2. Within the first six months of each year, Member States shall transmit to the Commission (Eurostat), with reference to 31 December of the previous year, the list of LAU indicating any changes and the NUTS 3 region to which they belong. In doing so it shall follow the electronic data format requested by the Commission (Eurostat).
3. The Commission (Eurostat) shall publish the list of LAU in the dedicated section of its website by 31 December of each year.

Article 4a Statistical grids

The Commission (Eurostat) shall maintain and publish a system of statistical grids at Union level in the dedicated section of its website. The statistical grids shall conform to the specifications laid down in Commission Regulation (EU) No 1089/2010 (¹).

Article 4b Union territorial typologies

- (1) The Commission (Eurostat) shall maintain and publish in the dedicated section of its website Union typologies composed of territorial units at the levels of NUTS, LAU and grid cells.
- (2) The grid-based typology shall be established at the 1 km² grid resolution level as follows:
 - ‘urban centres’,
 - ‘urban clusters’,
 - ‘rural grid cells’.
- (3) The following typologies shall be established at LAU level:
 - (a) degree of urbanisation (DEGURBA):
 - ‘Urban areas’:
 - ‘Cities’ or ‘Densely populated areas’,
 - ‘Towns and suburbs’ or ‘Intermediate density areas’,
 - ‘Rural areas’ or ‘Thinly populated areas’;

- (b) functional urban areas:
 - 'Cities' plus their 'Commuting zones';
- (c) coastal areas:
 - 'Coastal areas',
 - 'Non-coastal areas'.

If there is more than one administrative level of LAU in a Member State, the Commission (Eurostat) shall consult that Member State to determine the administrative level of LAU that shall be used for the attribution of typologies.

- (4) The following typologies and labels shall be established at NUTS level 3:
 - (a) urban-rural typology:
 - 'Predominantly urban regions',
 - 'Intermediate regions',
 - 'Predominantly rural regions';
 - (b) metropolitan typology:
 - 'Metropolitan regions',
 - 'Non-metropolitan regions';
 - (c) coastal typology:
 - 'Coastal regions',
 - 'Non-coastal regions'.
- (5) The Commission shall, by means of implementing acts, set out uniform conditions for the harmonised application of the typologies at Union level. Those conditions shall describe the method according to which the typologies will be assigned to the individual LAU and NUTS level 3 regions. When applying the uniform conditions, the Commission shall take into account geographical, socioeconomic, historical, cultural and environmental circumstances. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 7.

Article 5 **Amendments to NUTS**

- (1) The Member States shall inform the Commission of:
 - (a) all changes that have occurred in administrative units, in so far as they may affect the NUTS classification, as laid down in Annex I, or the contents of Annexes II and III;
 - (b) all other changes at the national level that may affect the NUTS classification, in accordance with the classification criteria laid down in Article 3.
- (2) Changes to NUTS level 3 boundaries due to changes of smaller administrative units as laid down in Annex III:
 - (a) shall not be considered as amendments of NUTS if they involve a population transfer equal to or less than one percent of the NUTS 3 territorial units concerned;
 - (b) shall be considered as amendments of NUTS, in accordance with paragraph 3 of this Article, if they involve a population transfer of more than one percent of the NUTS 3 territorial units concerned.
- (3) Amendments to the NUTS for the non-administrative units in a Member State, as referred to in Article 3(5), may be made if, at the NUTS level in question, the amendment reduces the standard deviation of the size in terms of population of all EU territorial units.

- (4) Amendments to the NUTS classification in Annex I shall be adopted in the second half of the calendar year, every three years at the earliest, on the basis of the criteria set out in Article 3. Nevertheless, if there is a substantial reorganisation of the relevant administrative structure of a Member State, such amendments to the NUTS classification may be adopted at shorter intervals.

The Commission shall be empowered to adopt delegated acts in accordance with Article 7a to amend the NUTS classification referred to in the first subparagraph of this paragraph on the basis of the changes in the territorial units that have been communicated to it by the Member State concerned in accordance with paragraph 1 of this Article. Regional data which the Member States send to the Commission (Eurostat) shall be based on the amended NUTS classification starting from 1 January of the second year after the adoption of that delegated act.

- (5) In the event that the Commission adopts a delegated act as referred to in paragraph 4, the Member State concerned shall transmit to the Commission (Eurostat) the time series for the new regional breakdown, to replace data already transmitted. The Member State concerned shall transmit these time series by 1 January of the fourth year after the adoption of that delegated act.

The Commission shall, by means of implementing acts, set out uniform conditions for time series and their length, taking into account the feasibility of providing them. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 7.

Article 6 Management

The Commission shall take the necessary measures to ensure the consistent management of the NUTS classification. In particular, such measures may include:

- (a) drafting and updating of explanatory notes on NUTS;
- (b) examination of problems arising from the implementation of NUTS in the Member States' classifications of territorial units.

Article 7 Committee procedure

- (1) The Commission shall be assisted by the European Statistical System Committee. That committee shall be a committee within the meaning of Regulation (EU) No 182/2011.
- (2) Where reference is made to this paragraph, Article 5 of Regulation (EU) No 182/2011 shall apply.

Article 7a Exercise of the delegation

- (1) The power to adopt delegated acts is conferred on the Commission subject to the conditions laid down in this Article.
- (2) The power to adopt delegated acts referred to in Articles 3(4), 4(1) and 5(4) shall be conferred on the Commission for a period of five years from 18 January 2018. The Commission shall draw up a report in respect of the delegation of power not later than nine months before the end of the five-year period. The delegation of power shall be tacitly extended for periods of an identical duration, unless the European Parliament or the Council opposes such extension not later than three months before the end of each period.
- (3) The delegation of power referred to in Articles 3(4), 4(1) and 5(4) may be revoked at any time by the European Parliament or by the Council. A decision of revocation shall put an end to the delegation of the power specified in that decision. It shall take effect on the day following the publication of the decision in the *Official Journal of the European Union* or at a later date specified therein. It shall not affect the validity of any delegated acts already in force.

- (4) Before adopting a delegated act, the Commission shall consult experts designated by each Member State in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making.
- (5) As soon as it adopts a delegated act, the Commission shall notify it simultaneously to the European Parliament and to the Council.
- (6) A delegated act adopted pursuant to Articles 3(4), 4(1) and 5(4) shall enter into force only if no objection has been expressed either by the European Parliament or by the Council within a period of two months of notification of that act to the European Parliament and the Council or if, before the expiry of that period, the European Parliament and the Council have both informed the Commission that they will not object. That period shall be extended by two months at the initiative of the European Parliament or of the Council.

Article 9 **Entry into force**

This Regulation shall enter into force on the 20th day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

ANNEX I **The NUTS classification**

ANNEX II **Existing administrative units**

At NUTS level 1 for Belgium 'Gewesten/Régions', for Germany 'Länder', for France 'Régions', for Portugal 'Continente', 'Região Autónoma dos Açores' and 'Região Autónoma da Madeira', and for United Kingdom 'Scotland, Wales, Northern Ireland' and the 'Government Office Regions of England'.

At NUTS level 2 for Belgium 'Provincies/Provinces', for Denmark 'Regioner', for Greece 'Περιφέρειες (Peripheries)', for Spain 'Comunidades Autónomas, Ciudades Autónomas', for Italy 'Regioni', for the Netherlands 'Provinces', for Austria 'Länder' and for Poland 'Województwa'.

At NUTS level 3 for Belgium 'Arrondissementen/Arrondissements', for Bulgaria 'Области (Oblasti)', for the Czech Republic 'Kraje', for Germany 'Kreise, kreisfreie Städte', for Spain 'Provincias, Consejos insulares' and 'Cabildos', for France 'Départements', for Croatia 'Županije', for Italy 'Provincie', for Lithuania 'Apskritys', for Hungary 'Megyei', for Portugal 'Entidades Intermunicipais', 'Região Autónoma dos Açores' and 'Região Autónoma da Madeira', for Romania 'Județe', for the Slovak Republic 'Kraje', for Sweden 'Län' and for Finland 'Maakunnat/Landskap'.

ANNEX III **Local administrative units**

For Belgium 'Gemeenten/Communes', for Bulgaria 'Населени места (Naseleni mesta)', for the Czech Republic 'Obce', for Denmark 'Kommuner', for Germany 'Gemeinden', for Estonia 'Linn, vald', for Greece 'Δήμοι (Dimoi)', for Spain 'Municipios', for France 'Communes', for Croatia 'Gradovi, općine', for Ireland 'Counties, County boroughs', for Italy 'Comuni', for Cyprus 'Δήμοι, κοινότητες (Dimoi, koinotites)', for Latvia 'Republikas pilsētas, novadi', for Lithuania 'Šavivaldybės', for Luxembourg 'Communes', for Hungary 'Települések', for Malta 'Localities', for the Netherlands 'Gemeenten', for Austria 'Gemeinden', for Poland 'Gminy', for Portugal 'Freguesias', for Romania 'Municipii, Orașe' and 'Comune', for Slovenia 'Občine', for the Slovak Republic 'Obce', for Finland 'Kunnat/Kommuner', for Sweden 'Kommuner' and for the United Kingdom 'Wards'.

Annex 2

COMMISSION REGULATION (EU) 2016/2066 of 21 November 2016 mending the annexes to Regulation (EC) No 1059/2003 of the European Parliament and of the Council on the establishment of a common classification of territorial units for statistics (NUTS)⁽²³⁾

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1059/2003 of the European Parliament and of the Council of 26 May 2003 on the establishment of a common classification of territorial units for statistics (NUTS)⁽²⁴⁾, and in particular Articles 3(4), 4(1) and 5(4) thereof,

Whereas:

- (1) Regulation (EC) No 1059/2003 establishes a common classification of territorial units to enable the collection, compilation and dissemination of harmonised regional statistics in the Union.
- (2) The annexes to Regulation (EC) No 1059/2003 list the territorial units to be used for statistics.
- (3) In accordance with the provisions in Article 5(4) of Regulation (EC) No 1059/2003, amendments to the NUTS classification shall be adopted in the second half of the calendar year, and usually not more frequently than every 3 years.
- (4) The NUTS classification was last amended by Commission Regulations (EU) No 1319/2013¹ (regular amendment) and (EU) No 868/2014² (extraordinary amendment due to a substantial reorganisation of the administrative territorial division of Portugal).
- (5) According to the information provided to the Commission, the administrative territorial division has changed in several Member States.
- (6) Regulation (EC) No 1059/2003 should therefore be amended accordingly.
- (7) The measures provided for in this Regulation are in accordance with the opinion of the European Statistical System Committee, HAS ADOPTED THIS REGULATION:

Article 1

The annexes to Regulation (EC) No 1059/2003 are replaced by the text in the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the twentieth day following its publication in the *Official Journal of the European Union*.

It shall apply, regarding the transmission of data to the Commission (Eurostat), from 1 January 2018.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 21 November 2016.

For the Commission

The President
Jean-Claude JUNCKER

⁽²³⁾ OJ L 322, 29.11.2016, p. 1–61

⁽²⁴⁾ OJ L 154, 21.6.2003, p. 1.

Annex 3

REGULATION (EU) 2017/2391 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 12 December 2017 amending Regulation (EC) No 1059/2003 as regards the territorial typologies (Tercet)⁽²⁵⁾

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 338(1) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee⁽²⁶⁾,

Having regard to the opinion of the Committee of the Regions⁽²⁷⁾,

Acting in accordance with the ordinary legislative procedure⁽²⁸⁾,

Whereas:

- (1) Regulation (EC) No 1059/2003 of the European Parliament and of the Council⁽³⁾ establishes a common statistical classification of territorial units (Nomenclature of territorial units for statistics, referred to as 'NUTS') in order to enable the collection, compilation and dissemination of harmonised regional statistics in the European Union.
- (2) The Commission, in collaboration with the Organisation for Economic Cooperation and Development, has defined a number of basic and most relevant territorial typologies to classify the statistical units established by Regulation (EC) No 1059/2003.
- (3) The European Statistical System already uses those typologies, in particular the degree of urbanisation, which includes the definition of cities.
- (4) The codification of the typologies is necessary in order to set out unambiguous definitions of and conditions for territorial types, ensuring their harmonised and transparent application and making the typologies stable in order to support the compilation and dissemination of European statistics. Those statistical typologies are without prejudice to the identification of specific areas for Union policies.
- (5) A system of statistical grids should apply to calculate and attribute the territorial types to the regions and areas in question, since those types depend on the population distribution and density in grid cells of one square kilometre.
- (6) A number of minor aspects of the local administrative units (LAU) should also be clarified to simplify terminology and the delivery mechanism of the lists of LAU from the Member States to the Commission (Eurostat).
- (7) In order to adapt to corresponding developments in the Member States, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of amending, in accordance with the information communicated by Member States, the NUTS classification in Annex I, the list of existing administrative units in Annex II and the list of LAU in Annex III to Regulation (EC) No 1059/2003. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level, and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making⁽⁴⁾. In particular, to ensure equal participation in the preparation

⁽²⁵⁾ OJ L 350, 29.12.2017, p. 1–6

⁽²⁶⁾ OJ C 209, 30.6.2017, p. 71.

⁽²⁷⁾ OJ C 342, 12.10.2017, p. 74.

⁽²⁸⁾ Position of the European Parliament of 14 November 2017 (not yet published in the Official Journal) and decision of the Council of 4 December 2017.

of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.

- (8) In order to ensure uniform conditions for the implementation of this Regulation, implementing powers should be conferred on the Commission in respect of the application of territorial typologies and the time series the Member States are to transmit to the Commission in case of any amendment to the NUTS classification. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council⁵.
- (9) Since the objective of this Regulation, namely the harmonisation of regional classification, cannot be sufficiently achieved by the Member States but can rather be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective.
- (10) Regulation (EC) No 1059/2003 should therefore be amended accordingly,
HAVE ADOPTED THIS REGULATION:

Article 1

Regulation (EC) No 1059/2003 is amended as follows:

- (1) Article 1 is replaced by the following:

'Article 1 Subject matter'

- (1) This Regulation establishes a common statistical classification of territorial units (NUTS), in order to enable the collection, compilation and dissemination of European statistics at different territorial levels of the Union.
- (2) The NUTS classification is set out in Annex I.
- (3) Local administrative units (LAU), as referred to in Article 4, shall complement the NUTS classification.
- (4) Statistical grids, as referred to in Article 4a, shall complement the NUTS classification. Those statistical grids shall be used to calculate population-based territorial typologies.
- (5) Union territorial typologies, as referred to in Article 4b, shall complement the NUTS classification by attributing types to the territorial units.;
- (2) in Article 2, paragraph 5 is deleted;
- (3) Article 3 is amended as follows:
 - (a) paragraph 4 is replaced by the following:

4. The existing administrative units used for the NUTS classification are set out in Annex II. The Commission shall be empowered to adopt delegated acts in accordance with Article 7a to amend Annex II on the basis of the changes in the administrative units that have been communicated to it by the Member State concerned in accordance with Article 5(1).;
 - (b) in paragraph 5, the third subparagraph is replaced by the following:

'Some non-administrative units may, however, deviate from those thresholds because of particular geographical, socioeconomic, historical, cultural or environmental circumstances, especially in the islands and the outermost regions.';

- (4) Article 4 is replaced by the following:

'Article 4 Local administrative units'

- (1) In each Member State, local administrative units (LAU) shall subdivide NUTS level 3 into one or two further levels of territorial units. At least one of the LAU levels shall be an administrative unit as defined in Article 3(1) and as set out in Annex III. The Commission shall be empowered to adopt delegated acts in accordance with Article 7a to amend the list of LAU in Annex III on the basis of the changes in the administrative units that have been communicated to it by the Member State concerned in accordance with Article 5(1).
 - (2) Within the first six months of each year, Member States shall transmit to the Commission (Eurostat), with reference to 31 December of the previous year, the list of LAU indicating any changes and the NUTS 3 region to which they belong. In doing so it shall follow the electronic data format requested by the Commission (Eurostat).
 - (3) The Commission (Eurostat) shall publish the list of LAU in the dedicated section of its website by 31 December of each year.'
- (5) the following Articles are inserted:

'Article 4a Statistical grids'

The Commission (Eurostat) shall maintain and publish a system of statistical grids at Union level in the dedicated section of its website. The statistical grids shall conform to the specifications laid down in Commission Regulation (EU) No 1089/2010⁶.

Article 4b Union territorial typologies

- (1) The Commission (Eurostat) shall maintain and publish in the dedicated section of its website Union typologies composed of territorial units at the levels of NUTS, LAU and grid cells.
- (2) The grid-based typology shall be established at the 1 km² grid resolution level as follows:
 - 'urban centres',
 - 'urban clusters',
 - 'rural grid cells'.
- (3) The following typologies shall be established at LAU level:
 - (a) degree of urbanisation (DEGURBA):
 - 'Urban areas',
 - 'Cities' or 'Densely populated areas',
 - 'Towns and suburbs' or 'Intermediate density areas',
 - 'Rural areas' or 'Thinly populated areas';
 - (b) functional urban areas:
 - 'Cities' plus their 'Commuting zones';

(c) coastal areas:

- 'Coastal areas',
- 'Non-coastal areas'.

If there is more than one administrative level of LAU in a Member State, the Commission (Eurostat) shall consult that Member State to determine the administrative level of LAU that shall be used for the attribution of typologies.

(4) The following typologies and labels shall be established at NUTS level 3:

(a) urban-rural typology:

- 'Predominantly urban regions',
- 'Intermediate regions',
- 'Predominantly rural regions';

(b) metropolitan typology:

- 'Metropolitan regions',
- 'Non-metropolitan regions';

(c) coastal typology:

- 'Coastal regions',
- 'Non-coastal regions'.

(5) The Commission shall, by means of implementing acts, set out uniform conditions for the harmonised application of the typologies at Union level. Those conditions shall describe the method according to which the typologies will be assigned to the individual LAU and NUTS level 3 regions. When applying the uniform conditions, the Commission shall take into account geographical, socioeconomic, historical, cultural and environmental circumstances. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 7:"

(6) Article 5 is amended as follows:

(a) paragraph 4 is replaced by the following:

'4. Amendments to the NUTS classification in Annex I shall be adopted in the second half of the calendar year, every three years at the earliest, on the basis of the criteria set out in Article 3. Nevertheless, if there is a substantial reorganisation of the relevant administrative structure of a Member State, such amendments to the NUTS classification may be adopted at shorter intervals.

The Commission shall be empowered to adopt delegated acts in accordance with Article 7a to amend the NUTS classification referred to in the first subparagraph of this paragraph on the basis of the changes in the territorial units that have been communicated to it by the Member State concerned in accordance with paragraph 1 of this Article. Regional data which the Member States send to the Commission (Eurostat) shall be based on the amended NUTS classification starting from 1 January of the second year after the adoption of that delegated act.';

(b) paragraph 5 is replaced by the following:

'5. In the event that the Commission adopts a delegated act as referred to in paragraph 4, the Member State concerned shall transmit to the Commission (Eurostat) the time series for the new regional breakdown, to replace data already transmitted. The Member State concerned shall transmit these time series by 1 January of the fourth year after the adoption of that delegated act.

The Commission shall, by means of implementing acts, set out uniform conditions for time series and their length, taking into account the feasibility of providing them. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 7:';

(7) Article 7 is replaced by the following:

'Article 7 Committee procedure'

- (1) The Commission shall be assisted by the European Statistical System Committee. That committee shall be a committee within the meaning of Regulation (EU) No 182/2011.
- (2) Where reference is made to this paragraph, Article 5 of Regulation (EU) No 182/2011 shall apply.;
- (8) the following Article is inserted:

'Article 7a Exercise of the delegation'

- (1) The power to adopt delegated acts is conferred on the Commission subject to the conditions laid down in this Article.
- (2) The power to adopt delegated acts referred to in Articles 3(4), 4(1) and 5(4) shall be conferred on the Commission for a period of five years from 18 January 2018. The Commission shall draw up a report in respect of the delegation of power not later than nine months before the end of the five-year period. The delegation of power shall be tacitly extended for periods of an identical duration, unless the European Parliament or the Council opposes such extension not later than three months before the end of each period.
- (3) The delegation of power referred to in Articles 3(4), 4(1) and 5(4) may be revoked at any time by the European Parliament or by the Council. A decision of revocation shall put an end to the delegation of the power specified in that decision. It shall take effect on the day following the publication of the decision in the *Official Journal of the European Union* or at a later date specified therein. It shall not affect the validity of any delegated acts already in force.
- (4) Before adopting a delegated act, the Commission shall consult experts designated by each Member State in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making.
- (5) As soon as it adopts a delegated act, the Commission shall notify it simultaneously to the European Parliament and to the Council.
- (6) A delegated act adopted pursuant to Articles 3(4), 4(1) and 5(4) shall enter into force only if no objection has been expressed either by the European Parliament or by the Council within a period of two months of notification of that act to the European Parliament and the Council or if, before the expiry of that period, the European Parliament and the Council have both informed the Commission that they will not object. That period shall be extended by two months at the initiative of the European Parliament or of the Council.;
- (9) Article 8 is deleted;
- (10) the title of Annex III is replaced by the following:
'LOCAL ADMINISTRATIVE UNITS'.

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Strasbourg, 12 December 2017.

GETTING IN TOUCH WITH THE EU

In person

All over the European Union there are hundreds of Europe Direct information centres. You can find the address of the centre nearest you at:
https://europa.eu/european-union/contact_en

On the phone or by email

Europe Direct is a service that answers your questions about the European Union.

You can contact this service:

- by freephone: 00 800 6 7 8 9 10 11 (certain operators may charge for these calls),
- at the following standard number: +32 22999696, or
- by email via: https://europa.eu/european-union/contact_en

FINDING INFORMATION ABOUT THE EU

Online

Information about the European Union in all the official languages of the EU is available on the Europa website at: https://europa.eu/european-union/index_en

EU publications

You can download or order free and priced EU publications from: <https://publications.europa.eu/en/publications>. Multiple copies of free publications may be obtained by contacting Europe Direct or your local information centre (see https://europa.eu/european-union/contact_en).

EU law and related documents

For access to legal information from the EU, including all EU law since 1952 in all the official language versions, go to EUR-Lex at: <http://eur-lex.europa.eu>

Open data from the EU

The EU Open Data Portal (<http://data.europa.eu/euodp/en>) provides access to datasets from the EU. Data can be downloaded and reused for free, for both commercial and non-commercial purposes.

Regions in the European Union

Nomenclature of territorial units for statistics -

NUTS 2016/EU-28

This document presents the current NUTS nomenclature, which subdivides the territory of the European Union into 104 regions at NUTS level 1, 281 at NUTS level 2 and 1 348 at NUTS level 3. The NUTS is the official division of the EU for regional statistics, visualised on maps.
